MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. INDUSTRY STRUCTURE & DEVELOPMENT

The year 2016-17 was one of reforms with the major thrust being on elimination of black money, corrective measures for various sectors, transparency and tackling of the issue of bureaucratic deadwood.

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organisation (CSO) and International Monetary Fund (IMF). The Government of India has forecasted that the Indian economy will grow by 7.1 per cent in FY 2016-17. As per the Economic Survey 2016-17, the Indian economy should grow between 6.75 and 7.5 per cent in FY 2017-18. The improvement in India's economic fundamentals has accelerated in the year 2015 with the combined impact of strong government reforms, Reserve Bank of India's (RBI) inflation focus supported by benign global commodity prices.

India's consumer confidence index stood at 136 in the fourth quarter of 2016, topping the global list of countries on the same parameter, as a result of strong consumer sentiment.

Moody's has affirmed the Government of India's Baa3 rating with a positive outlook stating that the reforms by the government will enable the country perform better compared to its peers over the medium term.

Corporate earnings in India are expected to grow by over 20 per cent in FY 2017-18 supported by normalisation of profits, especially in sectors like automobiles and banks, while GDP is expected to grow by 7.5 per cent during the same period India has retained its position as the third largest startup base in the world with over 4,750 technology startups, with about 1,400 new start-ups being founded in 2016.

B. OPPORTUNITIES & THREATS

Opportunities

- 1. The Government of India announced demonetization of high denomination bank notes of Rs 1000 and Rs 500, with effect on November 8, 2016, in order to eliminate black money and the growing menace of fake Indian currency notes, thereby creating opportunities for improvement in economic growth.
- 2. Growing recognition of "Made in India" brand in global market.

Threats

- The problem of jobless growth will continue to haunt India in 2017 accentuated by rising unemployability of college graduates, outrage against outsourcing, trade protectionism, demand slowdown and not much improvement on ease of doing business front. That has the potential to gradually turn the country's demographic dividend into demographic disaster with serious long term implications for demand for homes and consumer goods.
- 2. The menace of NPAs will continue to grow in 2017. Indian banks are also forced to write off bad loans mostly given to larges corporates. Because of rising NPAs and write offs, banks are not able to pass on the benefit of policy rate cuts (175 basis points since Jan 2015) to borrowers especially retail borrowers and SMEs that will have adverse implications for India's growth prospects going forward.
- 3. Heavy competition in manufacturing field from china.

C. RISKS AND CONCERNS

- 1. The overall response by the governments to the slowdown in the growth in developed markets had been to adopt policies to protect their markets and labour. In 2016, the G20 countries have taken more trade restrictive measures than trade facilitating ones. Such protectionist trade policies create uncertainties as they are meant to provide immediate stimulus and therefore tend to be more variable and less consistent. More protectionism could mean more pressure on exports for emerging market economies. For India, it could be a sort of a double whammy as a large share of our import basket is consumed by oil, which has on account of OPEC cuts seen a hardening in prices.
- 2. Effect of Demonetisation According to the government estimates, growth was expected to come down to 7.1% in FY17. If demonetisation is factored in, then growth in the current year is likely to be further affected on account of consumer's inability and some hesitation to spend. This can lead to a short term vicious cycle of lower expected consumption feeding into lower investment expectation and most people just postponing plans till they feel that a new normal has come in the economy.

D. OUTLOOK

According to The World Bank, the Indian economy will likely grow at 7 per cent in 2016-17, followed by further acceleration to 7.6 per cent in 2017-18 and 7.8 per cent in 2018-19. Demonetisation is expected to have a positive impact on the Indian economy, which will help foster a clean and digitised economy in the long run.

India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to shift in consumer behaviour and expenditure pattern, according to a Boston Consulting Group (BCG) report; and is estimated to surpass USA to become the second largest economy in terms of purchasing power parity (PPP) by the year 2040, according to a report by PricewaterhouseCoopers. Also, the Prime Minister, Mr Narendra Modi has stated that India has become the world's fastest growing large economy, and is expected to grow five-fold by 2040, owing to a series of policy measures.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017 based on the internal control over financial reporting criteria establish by the company considering the essential components of internal control stated in the guidance note on Audit of internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India.
